**Subject:** US07 Volvo Genuine Exchange Diesel Particulate Filter (DPF) and Diesel Oxidation Catalyst (DOC) program.

---

Currently all US07 Volvo trucks have a Compact or Vertical Back of Cab (VBOC) Catalyzed Diesel Particulate Filter and Diesel Oxidation Catalyst. The Diesel Particulate Filter (DPF) and Diesel Oxidation Catalyst (DOC) are sold as new units with a core charge. Volvo Genuine Exchange cores should be returned to the core consolidation hub at RPM.

**Core Instructions**

- The core must be returned in the original packaging.
  - Place dirty core into plastic bag that is provided for you
  - Insert into smaller box
  - Insert smaller box into larger outer box
- Core must not be damaged by non-operational causes such as rust, rough handling or fire.

Current part numbers:

**Compact DPF Filters:**

D11 85001366  
D13 85000726  
D16 85000726

**Compact DOC's:**

D11 85001356  
D13 85001355  
D16 85001355

**VBOC DPF Filters:**

D11 85001367  
D13 85000725  
D16 85000725

**VBOC DOC's:**

D11 85001356  
D13 85001355  
D16 85001355
